**Thank You To Purchase This Report.The Following Method Is
Something That Works And Will Make You Easy Money.
I MEAN “CRAZI MONEY”**

**So We Talking About MySpace,So Maybe You Thinking That How
Anyone Can Make Money On A Social Networking Site ?**

Yes You Will Earn Money Through These Social Networking Sites.

**I Will Show You Step by Step Method How To Make Money With
MySpace,Hi5 And Other Social Networking Site.**

Step 1: Get a MySpace Account

This one is fairly obvious,Lol!

Make a completely new myspace account to use to make money on myspace.

So you will need more accounts but after understanding whole method.

After you made the account go get a layout for your account [Click Here](#) .

And choose one layout and use it ,Don't waste too much time to selecting one. ;)

So now your account is ready to make some crazy money. Remember not crazy

I said Crazi money ☺

Remember for your future reference this is true that girls account take more money then male accounts ;)

Step 2: Add friends in your account.

So now we need some friends,I am not going to give you a affiliate link of a friend adder software.

But if you can't work that hard that I will show below then you can [buy this software](#) which I am also using and I have two words for it AWESOME and there myspace friend adder is much cheaper then others.

We will use some free ways to get friends ☺ and remember this is a secret method ☺, But this is a hard work.

Note these two sites <http://www.friendstorm.net/> and <http://www.ssfriendship.com/>

So what you have to do ? add friends from there ?

HELL NO!!!

First get your myspace id.

Where can I find my myspace id ?

Login to your account,Click on profile which is located below your avatar.

Check your address bar now ,check below

TESTED FORMULA

Now you got your myspace id ☺.Put your id in friendstorm.net
Then you will see 3 images showing (Friends).

Now we will click “Turbo” button to add 3 friends in one click.

3 popup window will open ...

So we have to confirm them ? add them ?

Again HELL NO!!

This will take time. our main aim is to get points not add friends.

So Close that windows without doing anything.

Now you will see 3 points added to your account. ☺

So you have to do this same thing till you reach 500 points.

The points are reset every night at 12:00 AM EST

Remember the more points you have the more friends request you will get in your account. ☺

As I told that points are reset every night at 12.00 AM EST.

So get ready everyday at that time.I will suggest you to do this at that time when they reset you points,so you will get more friends request's.

You will get around 400 Friend Requests daily If you do this

Same with SSfriendship.com site 😊.

Every day you will do this and in less than 7 days you will have 3000 friends. 😊

But you will get 3000 friends within 7 days only if you use one site.
Just think what if you use both sites, Just wonder

Then More friends

Step 3: Join ClickBank to find high-commission items

Clickbank is a website where people who have written ebooks (or downloadable courses) go to sell their products. And YOU join clickbank and automatically become an affiliate for every product that is listed there.

This is perfect for our myspace plan because there are over 10,000 products at clickbank, all with unique sales letters, all catering to different niches, and all you need to do is send people to a special link that clickbank will give you for each product. And you're ready to refer and make money

Go check it out now www.clickbank.com

Step 5: Get a \$0.99 .info or .org domain

We dam need to get a cheap domain for our myspace earning plan.

WHY? Because myspace has banned affiliate links from being posted on myspace pages and comments. *They don't like that someone other than THEM can use the site to make money.*

If you DO post your affiliate link on there, it just won't show up.

Step 7: Send comments to all of your new targeted friends

Now for this you have to use a Myspace friend adder software. Which will post comments on your friends pages ☺.

We can send comments that will not look like that we are marketing a product to sell them and earn money ☺

Like 'Hey. Thanks for adding me', 'Hey. Your profile looks pretty cool', etc. And just put a link to your site at the bottom of that comment ☺.

Or

You can just comment that words and don't put any link there. Just ask them to visit your own profile that will contain your site link for sure.

Post Bulletin Also Which Will Contain Link And Promotion

You know what ? I don't wanted to make money like that...Tell me some other ways ?

So if this is in your mind that you can't or don't wanted to try these method Or wanted to use this and the upcoming method too to make crazy money.

Selling your friends !!! EEKS !!

We are not talking about that sell your friends, We are talking about sell your myspace account on internet.

So what I can get from selling myspace accounts ??
